

## **EFFECTIVE SEPTEMBER 1, 2010**

Northeastern Tribal Health System (NTHS) will no longer offer a walk-in medical appointment service. NTHS will be utilizing a **Same Day Appointment System**. Patients will need to call (918) 675-2063 to schedule an appointment. *This number is a dedicated line specifically for same day appointments only.*

Phone lines will open at **7:30 am, Monday-Friday**. Patients need to call and leave a message. Messages will be returned in the order they are received. The same day appointment system is for **current active medical patients** with an acute illness.

NTHS is **NOT** an emergency facility. Some patients will be instructed to seek care at an EMERGENCY ROOM where life saving equipment and medications are available.
